

Baby John Beast Mode Lyrics

I dont care when the blood drops spell
Just another another another kill

Show your face wake up
The light turn on
Bharatlyrics.com
Oh baby john oh baby john

I dont care when the blood drops spell
Just another another another kill
Dont care when the blood drops spell
Just another another another kill

When the bullets start to fly
He is going to come for my life
When the bullets start to fly
He is going to come for my life

He is going to make you feel that high
The monsters going to be dangerous
Up comes into a die
Enemies run better show your face

Wake up the light you turn dont break
Oh baby john oh baby john

Can you feel the fight of 100 men
What are you going to do then
Baby john shoot brother he will come for you
When you feel the fight of 100 men

What are you going to do then
Baby john shoot brother he will come for you
Dont make me do this do this

It is your death war war oh yeah
Dont make me do this yeah
It is your baby take ass get

I dont care when the blood drops spell
Just another another another kill
Dont care when the blood drops spell
Just another another another kill
