I wanna see the love that you can offer
Can a diamond from your world bring us closer?
You just fell in love with a fashion killer
And it's by any means choppin' multi to multi-millions

You wanna go to bora bora with the sabi baby?
Give you the hip and let you hold me like a whiny baby?
Send me the visa for the border border border border
Spice girl i know you wanna wanna wanna wanna

Could this be us in drunken love?
Your tempt to touch is not enough

Ay you and me tell me where you wanna go
