

Under the ground
Beneath the bones
Beneath the sadness
Tilling stones
Machines humming
Insouciant drone

Flowers are flowers
In garden graves
From far off
Lands mistaken faith
You're imprisoned
Make believe

What happened baby
What happened today
What happened baby
You look like you've
Seen a ghost

Under the ground
Beneath the bones
Beneath the sadness
Tilling stones
Your head is spinning
Hands are red

Flowers are flowers
In garden graves
From far off
Lands shaken faith
Root lie shivering
Over exposed

What happened baby
What happened today
What happened baby

You look like you've
Seen a ghost
Cry cry the same cry

Words that hide the pain inside
Cry cry the same old cry.
