Our time is now now now now
Hey you, c'mon you
You sing and i hear

Bharatlyrics.com
I just want you nearer
Whrill me, frill me
Right now and maybe after
King and queen and up high
Dreaming gold life style
The sky was high but we believed
We here to stay
We show them how
Our growing light
Our growing need
We blazed away
Our time is now now now now now!

Hey you, see you
You and your shadow darling
Silver balls are fire
Soothing my desire
Sing me, ring me
Out in the desert calling
Shifting sans deliver
My hold mine's queer

The sky was high but we believed
We here to stay
We show them how
Our growing light
Our growing need
We blazed away
Our time is now now now now now!
Woo...

La la la...

I just...
La la la..
We'll go forever!
Wo...
