

You know that i want love brother
So just play this queue
I wanted to last forever
just leave it n repeat
Nobody lives forever
lives give and take
You just gotta find the
love that compensates for faith

Love is going to set me free brother
Whats tying you down right now
The chains of loneliness brother
I ve got used to them some how
Nobody lives forever lives give and take
You just gotta find the
love that compensates for faith

Dont you believe in soulmates brother
They are for teenagers and swans to find
And didnt you had a soulmate once brother
Yeah but she committed suicide i m kidding
Bharatlyrics.com
Nobody lives forever
i guess your lives give and take
You just gotta find the
love that compensates for faith.
