

Ahh are you ready
Can you feel me
Alright here we go

Let me show you don't be shy
What i love what i like
I'm really feeling you tonight
Make you want me
Boy make you want me

Gonna take you high and low
Somewhere you been before
Gonna spin and
You don't know
Which way to go
To the way my hips move
Way i bring it back to you
Take my hand so
I can make you understand

Let me show you don't be shy
What i love what i like
I'm really feeling you tonight
Make you want me
Boy make you want me

I have my eyes on you boy
Now i finally can do
The things i want make
My fantasies come true
Stay close don't you let go
I keep it nice and slow
To the rhythm you
Relax enjoy the show

Let me show you don't be shy
What i love what i like
I'm really feeling you tonight
Make you want me
Boy make you want me
