

I think i met, i met my match,
And i think i got, a little attached,
And i dont know if you feel the same,
But i love this little game we play,

Da da da da,
You got me,

Da da da da,
You got me,
I'll do anything that you want to,
I wouldn't have as much fun without you,

I think i met, i met my match,
And i think i got, a little attached,
And i dont know if you feel the same,
But i love this little game we play,

You got me when you send a
Tune from my favorite tv show,
You got me when you said
You like my perfect little toes,
You got me when you said
I was prettier than marilyn monroe,
You got me when you said hello, oh, oh, oh,

I think i fell, i fell for you and,
I think i told you all that i should,
And i dont know if you feel the same,
But i love this little game we play,

I think i met, i met my match,
And i think i got, a little attached,
And i dont know if you feel the same,
But i love this little game we play,

Da da da da, you got me,
Da da da da, you got me,
You got me.
