

The raging fire makes me shake  
Keeps me la la la la  
The passion to become one

You smell like rain  
It's insane oo la la la la  
You blow me away from this earth

The raging fire makes me shake  
Keep me la la la la  
The passion to become one

You smell like rain  
It's insane oo la la la la  
You blow me away  
From this earth na na na

I love romantic fights  
Hug me so very tight  
Kiss me another time  
You are my sixth element

Do you have what it takes  
I can see in your gaze

Better not disappoint  
You are at my gunpoint

BHARAT  
lyrics

I love you  
Such a better guy

I'm just good at being yours  
I only wish there was a cure  
This disease spread across my veins

I like you rough  
I like you sweet  
My mind tells me 100 things  
But you are the only one  
That makes me feel

I'm plunging in you deeper  
It's making my knees weaker  
A little bit of fun  
Would mean no harm, na na na

I love romantic fights

Hug me so very tight  
Kiss me another time  
You are my sixth element

Do you have what it takes  
I can see in your gaze  
Better not disappoint  
You are at my gunpoint

I love you  
You're such a bad guy

I'm the bad guy  
I'm the bad guy  
I'm the bad guy  
I'm the bad guy.
