

I know you got your own town  
I know you got your own ways  
I know you got your own life  
I'm just sayin' c'mon down to my place

C'mon make some new friends  
And tell me what you drinkin'  
I know there a place like home  
But i know you gonna like it in my city

Everybody's welcome here  
Everybody's welcome to my city  
We ain't got no worries here  
I know you gonna like it in my city  
Know you gotta a friend in me  
You ain't gonna wanna leave  
C'mon...  
You ain't never had a party  
Till you come to party in my city

Drivin down to boulevard  
Comin' out inside my car  
No sittin' in the backyard  
Lets go for a ride  
Come on and ride with me  
Baby just come with me to my community  
Come on lets go lets hit the road  
Turn up the radio let's radio..

We do it all night long  
We got everything you and me  
Music plays all night long  
I know you gonna like it in my city  
Everybody's welcome here ho o..  
Everybody's welcome to my city  
We got no worries here  
I know you gonna like it in my city  
You know you gotta a friend in me  
You ain't gonna wanna leave  
C'mon..

lyrics

You ain't never had a party  
Till you come to party in my city  
When you're here city is yours

Let the music play  
Dance tonight away  
Everybody's in my city  
C'mon here let's enjoy  
Let the music play  
Bharatlyrics.com  
Dance tonight away

C'mon here in my city  
Everybody's welcome here  
Everybody's welcome to my city  
We got no worries here  
I know you gonna like it in my city  
You know you gotta a friend in me  
You ain't gonna wanna leave  
C'mon..  
You ain't never had a party  
Till you come to party in my city  
When you're here city is yours.
