

Life Of Partha Song Lyrics

A surreal state of togetherness were in
An intoxicating warmth we are lost within
Bright lights glare on the glass of the ledge
Screaming out.. But we do not hear a thing

Clinging to you close
Your heart beats fierce
Your breath on my neck
A whispering peck

Let this lonely sound play on tonight
Let this lonely sound play on tonight
Let this lonely sound make us feel alright
Let this lonely sound play on tonight

Post dramatic dating gotta disorder
Cant get my thoughts to obey my simple order
Bharatlyrics.com
Its a battleground
Being siege by past memories like bullet shots fired
But we over deal
Should be getting over you

But what i wouldn't know is smell like your perfume
Got me feeling nostalgic
You are self destructive and it had no
Grass ain't greener on the sutherland
Gross out front of patch on the other side

Unclear.. But strangely so so sure
Tangle together hoping you'll
Stay close here.
