

To write your name down  
On piece of paper  
Then strike it off better  
And i am in need it  
But you remember this once  
And once forever  
That i will be there  
When you need me  
Because i love you  
I love you till the end  
Because i love you  
I love you till the end  
Because i love you

Because i love love love  
Because i love love love  
Because i love love love

Don't write me oh so soon  
Cuz i will show  
Improve to you  
That i can be someone  
Timelong special  
In your heart  
I know this love is for you  
And i will spend  
My life with you  
Because i love you  
I love you till the end  
Because i love you  
I love you till the end  
Because i love you

Because i love love love  
Because i love love love  
Because i love love love

To write your name down  
On piece of paper  
Then strike it off better

And i am in need it  
But you remember this once  
And once forever

Because i love you

Because i love love love  
Because i love love love.
