

The boy, he thinks i am damaged goods
I know he does and i guess he should
I dress like him, i take him down
He gets embarrassed when his
Friends come around
I wanna take him too the show
Im crossing over what you know
Is it the boy you need in me
Or the girl that you could be

Come on now graceful, i want you too be
Come on now social, i want you too be
Come on now special, i want you too be
I want you too be, i want you

So this is the measure of me

Even though it should not be
The lion lays down with the lamb
I cant do it so i worth a damn

Come on now graceful, i want you too be
Come on now social, i want you too be
Come on now special, i want you too be
Come on now social, i want you too be
I want you too be, i want you too be
I want you too be.
