

Deep within my soul oh god, i long for you
But the contradiction is i fear the truth
Mistaken by this world oh no i gain to lose
Im cold and i cant breathe and i refuse

To let you hold me, to let you love you
To accept you in my life
I don't know if when you'll forgive
Cause deep down inside
Deep down im in love
Inside baby your're my outside baby
You're my heart's breathe meri jaan
Inside baby, your're my outside baby
You're my heart's breathe baby you're the one

I feel as though i dont know how to gain control,
Im drowning as the time just goes on by
You're the reason that the sun comes up at dawn
There's pain without you i cant survive

I don't know if when you'll forgive
Cause deep down inside
Deep down im in love
Inside baby your're my outside baby
You're my heart's breathe meri jaan
Inside baby, your're my outside baby
You're my heart's breathe baby you're the one

To let you hold me, to let you love you
To accept you in my life
I don't know if when you'll forgive
