

Waiting on a moon beam
Travelling through i scream, i fall into you
I know, not what you know
I hear the winds blow & close my eyes

Bol kaisi ye nadani,
Tu bol kaise ye bechani
Bol kaisi ye nadani
Tu bol kaise ye bechani
Bol...

Distance, hesitant love
Penitent brow & folded hands
In prayer, in desire
I look higher and pray for the rain
Bol kaisi ye nadani,
Tu bol kaise ye bechani
Bol kaisi ye nadani
Tu bol kaise ye bechani
Bol...

Through all the lights & the breeze so cool
I see it slowly come undone
I never knew that you're the one
Is it a dream or just the way we search
Through every corner, every turn
Its your face that haunts that makes me burn
