

Shadows of the night,  
They chase the moon  
They fear the light  
They are everywhere,  
You may not be aware

Spirits, sins, skies  
They haunt the darkness of night  
Don't hang around,  
There is something in the air  
Bharatlyrics.com  
Shut your windows,  
Lock the doors,  
Stay away all night  
No use running,  
They keep on coming,  
Shadows of the night

Visions in dream in  
Desperation make you scream  
You shake with fear  
Just hanging on for life  
Is not a slightest sound,  
You scared to death  
You turn around  
Is someone there,  
There are shadows everywhere  
Shut your windows,  
Lock the doors,  
Stay away all night  
No use running,  
They keep on coming,  
Shadows of the night.
