

If you got me crying
Girl stop your lying
That you don't know what
You're doing to me
Girl don't keep me waiting i'm gone
Leaving you might be better for me
May be i need a true love
Someone that you've been jealous of
You're wrong i never want it
You're wrong i never need it
What you never gave me
Was your love

You never give me your love
You never give me your love
You never give me your love

If you say you're satisfied
Then all the other guys i meet
Cuz you still don't see
Girl stop your crying
You know i'd never stop trying
You gotta listen to me
May be i need another love
Someone that i've been thinking of
You're wrong i never want it
You're wrong i never need it
What you never gave me
Was your love
You never give me your love
You never give me your love
You never give me your love

May be i need a true love
Someone that you've been jealous of
You're wrong i never want it
You're wrong i never need it
What you never gave me
Was your love
You never give me your love
